We won the Smart Data Awards 2026!

We're thrilled to announce that [we have won the Smart Data Infrastructure Award](#) at the London Smart Data Forum Awards 2026! NFH was recognised for our work in digital public infrastructure and for demonstrating how it can be used to create something foundational: turning data into a working layer for value exchange.

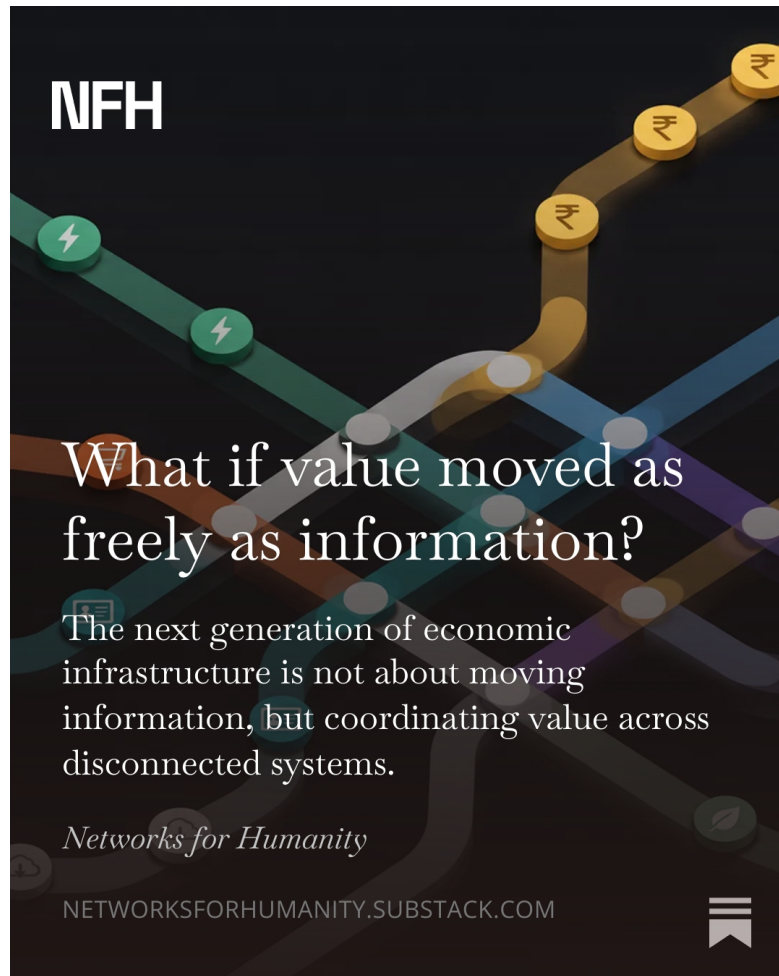

As always, we're grateful to our team for their commitment and to our partners for their continued collaboration. Building foundational systems is a collective effort, and we're proud to be doing it together.

Schneider Electric and NFH discuss the future of energy

Earlier this month, we hosted Schneider Electric's leadership team at our headquarters. [Jean-Pascal Tricoire](#), Chairman of Schneider Electric, joined us to explore how we are envisioning the future of energy with the Digital Energy Grid. Stay tuned for what's cooking.

Latest blog: What if valued moved as freely as information?

Every day, billions of dollars in potential value remain trapped within fragmented systems. In our latest Substack, we unpack why the future of economic infrastructure is not about faster information exchange, but about enabling seamless coordination of value across people, organizations, and AI agents.
