Dear community,

Welcome back to NFH Chronicles. Before we take you through all the action, a quick update on our protocol! We've officially released Beckn Protocol V2.0 Long Term Support (LTS) version. This update is a step towards making v2 easier to build on, easier to reason about, and easier to adopt across networks. You can read about all the release updates [here](#).

Onto the updates!

## Latest developments

### NFH in Latin America

We made an appearance at ADELATAM26, Argentina. Hosted by [Adelat](#), this was an opportunity to showcase the true potential of open networks in energy. Check out highlights from the conference [here](#).

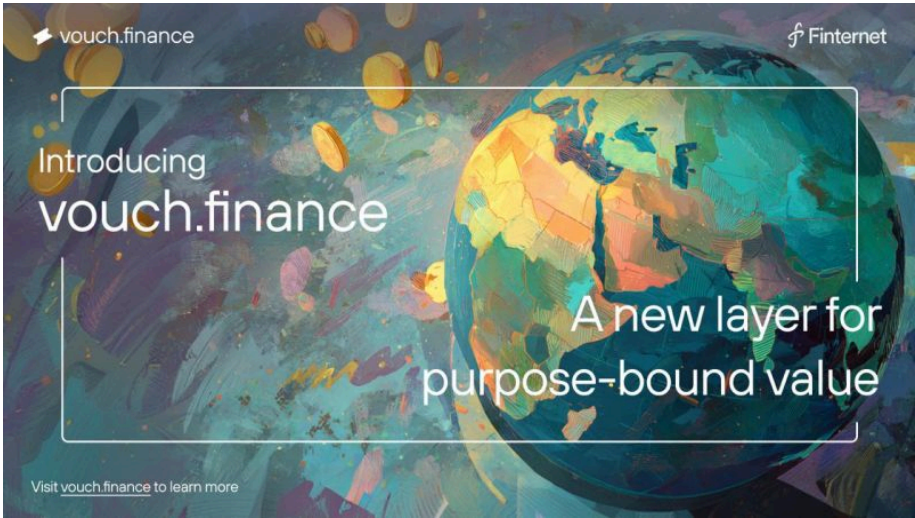

## Intercorp & IDEO at NFH India Headquarters

We played hosts to Intercorp & [IDEO](#) at our India headquarters this month. We discussed the potential that open networks have to transform sectors like mobility, commerce, and a lot more.

## Linking value to purpose with Vouch

As digital systems evolve, there is growing recognition that value transfer alone is not enough for many real-world use cases. Emerging approaches are exploring how value can be linked directly with identity, eligibility, purpose, timing, and outcomes to enable more structured and verifiable delivery. Vouch Finance is being developed to explore this direction across sectors such as healthcare, education, climate resilience, and social protection.

Visit [vouch.finance](https://vouch.finance) to learn more about this emerging approach.

## Community corner

### **Tech support has a new destination!**

Starting May 1st, all technical support is handled through our GitHub repository.

To get help, please open a new issue, fill in the key details (title, description, project, priority, and type), and submit. Adding context like screenshots or logs will help us resolve it faster.

[Raise a support issue](#)

## That's a wrap!

And that's a wrap for May! Stay charged and keep building! ❤️

Stay tuned for all things NFH.
